Medical Laboratory Sciences (1992) **49**, 349–353

Subject Index

(A) Abstracts from the IMLS 92 conference
(C) Correspondence

Acute disease, elderly, 326
Adenoma, colorectal, 77
Adenovirus isolation, simian cell lines, 60
Adherence assays, coagulase negative, staphylococci, 207(A)
Adhesion:
  endothelial cell kinetics, 193(A)
  molecules, 194(A)
Aflatoxin, groundnuts, 213(A)
Ageing:
  antioxidants, 299
  free radicals, 299, 313
  neuroendocrinology, 283
  pathology, 242
  senescence pathology, 271
  water homeostasis, 291
AIDS, enteric parasites, 186(A)
Allografts, fetus, 191(A)
Alternaria toxic metabolites, 213(A)
Ammonia, faecal, measurement, 133
Amphetamines, urinary, detection, 27
Anaemia:
  diagnosis, computer simulation, 176(A)
  thalassaemia, 259
Anaerobic bacteria, identification, 198(A)
Antibiotics:
  cefpirome, 248
  new, therapeutic roles, 206(A)
Antibodies:
  anti-nuclear, 194(A)
  anti-paternal lymphocyte, 47
  hepatitis B, detection, 66
  immunocytochemistry, 166(A)
  monoclonal, 38
Anticoagulant:
  proteoglycans from seaweeds, 182(A)
  routine haematology, 183(A)
Antigen:
  dietary, immune responses, 185(A)
  Langerhans' and dendritic cells, 192(A)
  receptors, T-lymphocyte, 188(A)
Anti-HBs, detection, 66
Anti-hyperlipidaemic drug, interference in serum assays, 168(A)
Antioxidants, ageing, 299
Antithrombin III, 179(A)
Antiviral agents, the search, 218(A)
Aortic surgery, autologous transfusion, 221(A)
Arbovirus, molecular biology, 216(A)
Artery, coronary, anomalous, 165(A)
Arthritis, rheumatoid, gamma interferon, 186(A)
Ascophyllum nodosum, DNA-cleaving compounds, 223(A)
Aspiration cytology, 165(A)
Asthma, inflammation, 190(A)
Autoantibodies, islet cell, 194(A)
Automation:
  analysis of DNAase in Varidase, 226(A)
  Factor VIIIc inhibitors, 135
  immunocytochemistry, 161(A)
Bactec NR660, detection, blood cultures, 200(A)
Bacterial vaginosis, diagnosis, 8
Bacteroides fragilis, galactosidase, 227(A)
Bacteriology, stereomicroscopy, 340
Bacteriotherapy, *Clostridium difficile*, 198(A)
Benzoate, plasma, measurement by HPLC, 173(A)
Benzodiazepines, urinary, detection, 27
Benzoylecgonine, solid phase extraction, 169(A)
Blood:
  cell count, 259
  coagulation, automated assay, 135
  conservation, in cardiac surgery, 221(A)
  group, serology, gel techniques, 129
  overnight storage, temperature, 178(A)
Blood donors:
  rare, international panels, 222(A)
  screening for transmissible agents, 232(C)
Blood transfusion:
  autologous, 221(A)
  bone marrow transplantation, 220(A)
  hepatitis C virus, 219(A)
  Hong Kong and China, 219(A)
  Medicines Inspectorate, 222(A)
  Taiwan, 219(A)
  United Kingdom, 220(A)
Bone marrow transplantation, transfusion support, 220(A)
Book reviews:
  AIDS Testing: Methodology and Management Issues. Eds. G. Schochetman & J. R. George, 155
  An Introduction to Centrifugation. T. C. Ford & J. M. Graham, 87
  Atlas of Gynecologic Cytology. D. S. Heller & M. L. Stone, 346
  Autologous Transfusion and Hemotherapy. Eds. H. F. Taswell & A. A. Pineda, 239
  Basic Histopathology: A Colour Atlas and Text. 2nd edn. P. R. Wheater, H. G. Burkitt, A. Stevens & J. S. Lowe, 87
  Basic Laboratory Methods in Medical Parasitology. WHO, 154
  Basic Laboratory Procedures in Clinical Bacteriology. J. Vandepitte, K. Engbaek, P. Piot & C. C. Heuck, 234
  Basic Malaria Microscopy. WHO, 155
  Basic Tests for Pharmaceutical Dosage Forms. WHO, 155
  Cardiovascular Pathology. 2nd edn. Ed. M. D. Silver, 346
  Clinical Haematology. 7th edn. R. E. Eastman & R. R. Slade, 347
  Current Topics in Clinical Virology. Ed. P. Morgan-Capner, 240
  Cytokines. M. J. Clemens, 153
  Diagnostic Ultrastructure of Non-neoplastic Diseases. J. M. Papadimitriou, D. W. Henderson & D. W. Spagnolo, 344
  DNA Fingerprinting: Approaches and Applications. Eds. T. Burke, G. Dolf, A. J. Jeffreys & R. Wolff, 238
  Essential Histopathology. P. R. Millard, 152
  Foodborne Illness. (A Lancet Review), 90
  Foodborne Pathogens—An Illustrated Text. A. V. Varnam & M. G. Evans, 152
  General Pathology. I. A. R. More & I. L. Brown, 91, 236
  Genus and Species of Pathogenic Organisms. M. M. Smith, 239
  Glomerular Pathology. W. Lawler, 90
  Histochemistry. 4th edn, Vol. 3. Eds. P. J. Stoward & A. G. E. Pearse, 235
  Histology and Human Microanatomy. 6th edn. P. S. Amenta, 87
  Immunological Aspects of Renal Disease. D. B. G. Oliveira, 237

Implementing Quality Assurance. P. Bozzo, 156
Management of Blood Transfusion Services. Eds. S. R. Hollan, W. Wagstaff, J. Leikola & F. Lothe, 239
Mastering Science. R. Barass, 240
Medical Laboratory Haematology. 2nd edn. R. Hall & R. G. Malia, 237
Medical Microbiology and Immunology. Examination and Board Review. 2nd edn. E. W. Levinson & E. Jawetz, 348
Methods in Haematology. The Leukaemic Cell. 2nd edn. Ed. D. Catovsky, 347
Microbes and Man. 3rd edn. J. Postgate, 234
Micro-organisms, Biotechnology and Disease. P. Lowrie & S. Wells, 88
Multipoint Methods in the Clinical Laboratory. M. Fairs, R. George, J. Jolly & P. Wheat, 89
Notes on Ionising Radiation: Biological Effects, Quantities, Dose Limits and Regulations. D. Hughes, 91
Oncogenes and Tumor Suppressor Genes. F. Macdonald & C. H. J. Ford, 153
Pathology of the Colon, Small Intestine and Anus. 2nd edn. Ed. H. Thomas Norris, 345
Pathology of the Kidney. 4th edn. R. H. Heptinstall, 345
Practical Laboratory Haematology. Ed. J. A. Doipke, 89
Principles of Transfusion Medicine. Eds. E. C. Rossi, T. L. Simon & G. S. Moss, 91
Quality Control—Principles and Practice in the Microbiology Laboratory. Eds. J. J. S. Snell, I. D. Farrell & C. Roberts, 156
Rapid Methods and Automation in Microbiology and Immunology. A. Vaheri, R. C. Tilton & A. Balows, 344
Recent Advances in Blood Coagulation. Ed. L. Poller, 88
Recent Advances in Histopathology. No. 15. P. P. Anthony & R. N. M. MacSween, 234
Strengthening Health Management in Districts and Provinces: Handbook for Facilitators. A. Cassels & K. Janovsky, 157
The COSHH Regulations: A Practical Guide. Eds. D. Simpson & W. G. Simpson, 157
The History of Addenbrooke's Hospital, Cambridge. A. Rok, M. Carlton & W. Graham, 158
The Human Genome. T. Strachan, 348
The Immunoassay Kit Directory, Series A: Clinical Chemistry. Eds. E. Naysmith & J. Seth, 154
The International Biotechnology Directory, 1992. J. Coombs & Y. R. Alston, 238
The Year Book of Pathology and Clinical Pathology. K. M. Brinkhous, 152
Thymus, Lymph Nodes, Spleen and Lymphatics. 3rd edn. Eds. K. Henry & W. St C. Symmers, 346
Tumors and Tumorlike Lesions of Soft Tissue. Eds. V. Ninfo, E. B. Chung & A. O. Cavazzana, 344
Bovine spongiform encephalopathy, 216(A), 217(A), 334
Breakpoint site, chronic myeloid leukaemia, 175(A)
Breast:
  screening, 165(A)
  tumour, thymidine kinase, 244
Bullous pemphigoid, differentiation, 192(A)

Calcium, homeostasis in elderly, 170(A)
Campylobacter:
  isolation and characterization, 200(A)
  molecular biology, 198(A)
Cancer, *see* neoplasms
Carbamates, haemoglobin, 34
Carcinoma, gastric, immuno- and mucin histochemistry, 163(A)
Cardiac surgery, blood conservation, 221(A)
Catalase activity, polymorphs and platelets, 224(A)
Cefpirome, serum creatinine assay, 248
CELISA, anti-paternal lymphocyte antibodies, 47
Cell:
  ageing, 271
  culture, 56
Cholesterol, North Wales–Merseyside 1992, 172(A)
Chromatography, high performance liquid, 138, 148, 168(A), 173(A), 248
Chromogenic tests, *Esch coli* identification, 12
Ciprofloxacin-resistance, *Staphylococcus aureus*, 197(A)
Clostridium difficile, colonisation resistance, 198(A)
Coagulase, negative, staphylococci, 207(A)
Cocaine, solid phase extraction, 169(A)
Complement, nephelometric quantitation, 188(A)
Computer systems, speech recognition, 20
Controls, immunocytochemistry, 166(A)
Cook-chill system, hospital, microbiological investigation, 201(A)
Cost-effectiveness, drug abuse detection, 27
Creatinine, serum assays, 248
Creutzfeldt-Jacob disease, 334
Cross-reaction, latex agglutination, 144
Cyanoacrylate adhesive, bacteriological properties, 205(A)
Cyanobacteria, public health significance, 214(A)
Cystic fibrosis, treatment developments, 225(A)
Cytokeratin markers in carcinoma diagnosis, 164(A)
Cytokines:
  cell death, 186(A)
  measurement, 191(A)
  overview, 190(A)
Cytometry, flow:
  DNA studies, 229(A)
  evaluation of Ortho Cytoron Absolute™, 179(A)
  haematology applications, 177(A)
Cytopenia, immune, treatment, 181(A)

Data collection, speech recognition, 20
Demyelination, virus-induced, 215(A)
Dendritic cells, antigen handling, 192(A)
Deoxyribonuclease in Varidase, 226(A)
Dermatopathology, immunofluorescence, 161(A)
Detection:
  mycobacteria using PCR, 205(A)
  systems, immunocytochemistry, 166(A)
Diabetes mellitus, 34
  autoantibodies, 194(A)
Diagnosis:
  bacterial vaginosis, 8
  dilemmas, acute illness of elderly, 326
  polymerase chain reaction, 119
  renal biopsy sections, 147
  syphilis, 50
Diet, supplementation, immunocompetence, elderly, 187(A)
Difco travelling fellowship award, 198(A)
DNA:
  cleaving compounds from seaweed, 233(A)
  profiling, 226(A)
  recombinant, 224(A)
  RFLP analysis, 188(A)
  sequencing, 225(A)
Drug:
  abuse, detection, 27
  kinetics and dynamics in elderly patients, 319

Dynamics, drugs in elderly, 319

Egypt, ancient, diseases, 166(A)
Encephalopathy:
  bovine spongiform, 216(A), 217(A), 334
  human spongiform, 216(A)
Endothelium, lack of damage in obesity, 175(A)
Enteric pathogens:
  detection in food, 197(A)
  diagnosis of *Esch coli* infections, 203(A)
Enterococcus, gentamicin resistance, 16
Enterovirus, isolation, simian cell lines, 60
Enzyme:
  detection methods, 200(A)
  linked, fluorescent assay, 223(A)
  linked, immunosorbent assay, 50
Environment, health, 160
Epidermolysis bullosa acquisita, 192(A)
Erythrocyte, mutations in Oman, 181(A)
Escherichia coli:
  enteric infections, 203(A)
  food-borne pathogen, 202(A)
  rapid identification, 12

Factor VIII:
  automated assay, 135
  deficiency, treatment, 182(A)
Faeces, ammonia measurement, 133
Fetus, allograft, 191(A)
Fish, bacterial diseases, 196(A)
Fixation, immunocytochemistry, 166(A)
Flow cytometry, *see* cytometry
Fluorescent, antibody technique, 50
Fluorinated 4-quinolones, resistance mechanism, 205(A)
Food:
  legislation, 205(A)
  pathogen detection, 197(A)
  pathogens in, 202(A)
Fumigation, formaldehyde, 199(A)

Galactosidase, degradation of A, antigen, 227(A)
Gardnerella vaginalis, diagnosis, 8
Gel techniques, blood group serology, 129
Gene probes, 224(A)
  for thalassaemia detection, 178(A)
Gentamicin resistance, 16
Geriatrics:
  antioxidants, 299
  free radicals, 299, 313
  neuroendocrinology, 283
  water homeostasis, 291
Glucuronidase, enzyme tests, 12
Glutamate, pyruvic transaminase, malaria indicator, 56
Glycoprotein deficiency, platelet membrane, 182(A)
Glycosylation, haemoglobin, 34
Gram-negative organisms, resistance to lactam antibiotics, 199(A)
Groundnut, aflatoxin distribution, 213(A)

Haemagglutination, assay, anti-HBs detection, 66
Haemagglutinin, lectin, 223(A)
Haematology:
  anticoagulant, 183(A)
  comparative, leech, 180(A)
  flow cytometry, 177(A)
  indices, computer simulation, 176(A)
Haemoglobin:
  assessment, HP liquid chromatography, 138
  carbamylation and glycosylation, 34
Hazard, reproductive, in laboratory, 230(A)
Health, environment, 160
Hepatitis:
  B, detection, 66
  C virus, and blood transfusion, 219(A)
Hippurate, measurement by HPLC, 173(A)
Histiocytosis X, 164(A)
Histology, demonstration techniques, 161(A)
HistoStainer Ig, 161(A)
HIV, interaction with tuberculosis, 207(A)
Homeostasis:
  calcium, 170(A)
  water, in the aged, 291
HPLC:
  monoamine oxidase-B, 168(A)
  serum creatinine assays, 248
  urea disorders, 173(A)
Hybridisation, *in situ*, methodologies, 107
Hypercholesterolaemia, lipoprotein concentrations, 174(A)
Hypersensitivity, contact, 189(A)
Hypochromia, thalassaemia screening, 259

Identification:
  anaerobic bacteria, 198(A)
  Esch coli, 12
  enzyme methods, 200(A)
  Staphylococcus, 201(A)
Immune response, dietary antigens, 185(A)
Immunoassay, drug abuse, 27
Immunocompetence, elderly, dietary supplementation, 187(A)
Immunocytochemical panel, on single slide, 176(A)
Immunocytochemistry:
  desmoplastic malignant melanoma, 163(A)
  fixation, 163(A), 166(A)
  problem solving, 163(A)
  profiles, mesothelioma, 162(A)
  proteolysis, 163(A)
  thrombosis models, 177(A)
Immunodeficiency, primary, 189(A)
Immunofluorescence:
  Cryptosporidium oocyst detection, 211(A)
  diagnostic dermatopathology, 161(A)
Immunoglobulin:
  plasmapheresis donors, 265
  superfamily, 185(A)
Immunohistochemistry, comparison with mucin histochemistry, 163(A)
Immunoregulation, interferons, 192(A)
Immunotherapy, lymphocyte infusion, 47
Immunoturbidometric measurement, lipoprotein, 174(A)
Infection, toxoplasmosis, laboratory worker, 103
Interferon:
  gamma, rheumatoid arthritis, 186(A)
  immunoregulation, 192(A)
  properties and clinical effects, 189(A)
Inflammation, asthma, 191(A)
Insect, transmitted disease, 225(A)
Iron-binding capacity, measurement, 168(A)
Islet cell alloantibodies, 194(A)

Kinetics, drugs for elderly, 319

Lactam, antibiotic, resistance of Gram-negative organisms, 199(A)
Lactamase, detection in sputum, 199(A)
Lactate dehydrogenase, NAD-dependent, 196(A)
Langerhans' cells, antigen handling, 192(A)
Latex agglutination, cross-reaction, 144
Lectin:
  binding, mesothelioma, 162(A)
  haemagglutinin, 223(A)
  ocular drug delivery, 227(A)
Leech, comparative haematology, 180(A)
Legionella, identification, latex agglutination, 144
Leucocyte:
  adhesion, 193
  methods of isolating polymorphs, 228(A)
  monamine oxidase and catalase activities, 224(A)
Leukaemia, chronic myeloid, site of breakpoint, 175(A)
Lipid, disease, reduced anti-oxidant capacity, 169(A)
Lipoprotein:
  concentrations in hypercholesterolaemia, 174(A)
  immunoturbidometric measurement, 174(A)
  separation, procedure, 83
Liver disease, overview, 227(A)
Luminescence, in microbiology, 203(A)
Lupus erythematosus, protein, 180(A)
LUX, genes, in microbiology, 203(A)
Lymphocytes:
  antigen, HML-1, 187(A)
  anti-paternal antibodies, 47
  cell surface markers, 38
  T, antigen receptors, 188(A)
  T, maturation, 185(A)

Malaria:
  cerebral, 213(A)
  infection indicator, 56
  vaccination, 211(A)
  vaccine, 212(A)
Mating, form and function in reproduction, 228(A)
Measurement:
  antithrombin III, 179(A)
  cytokine, 191(A)
  faecal ammonia, 13
  urea cycle disorders, 173
Medicines, control, 222(A)
Megakaryocytes, circulating, 252
Mesothelioma, malignant, profiles, 162(A)
Methadone, urinary, detection, 27
Microbe, upper reproductive tract infection, 196(A)
Microscopy, stereo, clinical microbiology, 340
Microwave:
  fixation-induced hardening, 162(A)
  tissue preparation for EM, 162(A)
Mineral intake, infants, 173(A)
Moh's surgery, basal cell carcinoma, 164(A)
Monoamine oxidase:
  activity of polymorphs, 224(A)
  HPLC, 168(A)
Monocyte, procoagulant activity, measurement, 175(A)
Mortality statistics, cancer, England and Wales, 232(C)
Mucin histochemistry, gastric carcinoma, 163(A)
Multiple sclerosis, viral aetiology, 214(A)

Mutation, erythrocyte, 181(A)
Mycobacteria:
  detection using PCR, 205(A)
  staining, 99
Myelodysplasia, 177(A)
Myeloma, skin crystalline deposits, 193(A)

Neoplasms:
  colorectal, 77, 232(C)
  recurrence, 244
  screening, 85(C), 148
Nephelometric quantitation, complement, serum, 188(A)
Neuroendocrinology, ageing, 283
Nucleic acids:
  amplification, 226(A)
  clinical diagnosis, 119
  structure and function, 228(A)
Nutrition, parenteral, 171(A)

Obesity, lack of damage to endothelium, 175(A)
Oestriol, monitoring, 172(A)
Osteoporosis, assessment and treatment, 171(A)

Paraffin block, fixation and processing, 166(A)
Parasites:
  enteric, AIDS patients, 186(A)
  important in medicine, 212(A)
Pathogen-free poultry, 204(A)
Pathology, ageing, 242, 271
Phenylacetate, measurement by HPLC, 173(A)
Phenylalinine, enzymatic method, phenylketonuria screening, 170(A)
Phenylketonuria, screening, 170(A)
Placenta, megakaryocytes, 252
Plasmapheresis, donors, serum levels, 265
Plasmodium, infection indicator, 56
Platelet:
  catalase and monamine oxidase activity, 224(A)
  glycoprotein deficiency detection, 182(A)
  production in placenta, 252
  Western blotting, 70
Pneumocystis carinii pneumonia, diagnosis, 210(A)
Poisoned patient, role of laboratory, 170(A)
Polycythaemia, diagnosis and classification, 181(A)
Polymerase chain reaction:
  bacteriology, 210(A)
  blood donor screening, 232(C)
  diagnostic tool, 119
  mycobacteria detection, 205(A)
  probes, 215(A)
Polyposis syndrome, 77
Pooling clinical samples, 151(C)
Probes:
  DNA, 224(A)
  Gene, 178(A), 224(A)
  PCR, 215(A)
Problem-solving, immunocytochemistry, 163(A)
Protein, serum levels in plasmapheresis donors, 265
Proteinuria, laboratory evaluation, 169(A)
Proteoglycan, anticoagulant from seaweeds, 182(A)
Proteolysis, problem-solving, 163(A)
Poultry, pathogen-free, 204(A)

Quality control, staining, 99

Rabies, containment, Channel Tunnel, 215(A)
Radicals, free, aged, 299, 313
Renal disease, chronic, monitoring, 172(A)
Reproductive tract, upper, infections, 196(A)
Resistance:
  fluorinated 4-quinolones, 205(A)
  gentamicin, 16
Respiratory, infections, viral, tropics, 217(A)
Russell's viper venom time, 183(A)

Salmonella, factors affecting isolation, 210(A)
Scrapie, 217(A), 334
Screening, malignant diseases, ethics, 85(C)
Seaside, infections, 196(A)
Senescence, ageing pathology, 271
Serology, gel techniques, 129
Serum:
  assay, interference by anti-hyperlipidaemic drugs, 168(A)
  levels in plasmapheresis donors, 265
Skin infection, diseases affecting, 203(A)
Slime, assays, coagulase-negative staphylococci, 207(A)
Special care baby units, laboratory support, 173(A)
Speech recognition systems, 20, 206(A)
Sputum:
  beta lactamase detection, 199(A)
  tubercle bacilli counts, 94
Staining, Ziehl–Neelsen, modification, 99
Staphylococcus:
  ciprofloxacin-resistance, 197(A)
  multipoint identification, 201(A)
Stereomicroscopy, clinical microbiology, 340
Storage, overnight, blood samples, 178(A)
Streptococcus, gentamicin resistance, 16
Streptokinase, resistance assays, 178(A)
Susceptibility testing, 201(A), 202(A)
Syphilis, diagnosis, 50

Technicon Chem-1, iron measurement, 168(A)
Thalassaemia:
  gene probes for detection, 178(A)
  HP liquid chromatography, 138
  use of Technicon H*1 in screening, 259
Therapeutic roles, new antibiotics, 206(A)
Thesis Abstracts
  Bigley (née Bowdler) A. L.: An assessment of the electron beam stable acrylic resin, LR White, as a single embedding medium for the diagnostic analysis of renal biopsy sections by light and electron microscopy, 147
  Daudia A. S.: Cervical intraepithelial neoplasia screening using a high performance liquid chromatographic technique, 148
Thrombocytopenia, detection, 70
Thrombosis, immunohistochemistry, 177(A)
Thymidine kinase, breast tumour recurrence, 244
Tissue:
  preparation for EM, 162(A)
  transport/storage media, 38
Toxoplasmosis, laboratory worker infection, 103
Transport media, tissues, 38
Tuberculosis:
  HIV infection interaction, 207(A)
  smear and culture gradings, 94
Turnaround, times in microbiology laboratory, 230(A)
Typing, new methods, 204(A)

Vaccinaemia, HBsAg, in newborn, 343(C)
Vaccine:
  malarial, 211(A), 212(A)
  new approaches to development, 188(A)
Vaginosis, bacterial, 8
Venom, Russell's viper, 183(A)
Vibrio, NAD-dependent lactate dehydrogenase, kinetic properties, 197(A)
VIDAS, diagnostic tool, 223(A)
Virology, next decade, 216(A)
Virus:
  aetiology, multiple sclerosis, 214(A)
  induced, demyelination, 215(A)
  pathogenic in water cycle, 217(A)
  respiratory infections, tropics, 217(A)
  tropical disease diagnosis and prevention, 216(A)
Von Willebrand factor antigen, RID method, 141

Waste, clinical and laboratory disposal, 86(C), 149(C), 150(C), 343(C)
Water:
  homeostasis, in the aged, 291
  quality, seaside, 196(A)
Western blotting, detection of anti-P1, 70

Xanthoma, disseminatum, 164(A)
X-rays, history, Liverpool, 229(A)

Medical Laboratory Sciences (1992) **49**, 354–358
